

Foundations of Capability

A CMMI 'Building' Level Course

This is the first in the introductory series of courses for CMMI V2.0 and is a pre-requisite for taking the CMMI Associate exam or for attendance on one of the Building Excellence courses. Through a mixture of exercises, lectures and class discussions, the Foundations of Capability course will teach you how to use the CMMI V2.0 Model and explain the business value that can be gained by improving your organization's capability. Successful completion of this course will give you one attempt at the CMMI Associate exam and provides the necessary foundation knowledge to prepare you to take one or more of the subsequent Building Excellence courses.

Key Facts

Duration:	2 Days
Delivery:	In-Person or Virtual/On-line
Cost:	POA
Provider:	Excellence in Measurement Technology

Who should take the course?

This is a general course suitable for anyone interested in improving the performance of their business or organization.

Pre-requisites for this Course

There are no specific pre-requisites for this course.

Course Outline

This course is spread over 18 modules which are delivered over a 2 day period through a combination of lectures, group and individual exercises, and class discussions and activities.

The modules cover the core content of the CMMI and encourage students to use the CMMI Model viewer throughout. The emphasis is not on pure model content but on the practical use of the model to improve organisational performance and capability.

Some of the topics covered during this course include:

- Performance & Improvement Goals
- Model Structure
- Ensuring Quality
- Planning & Managing Work
- Improving Performance
- Maturity & Capability Levels
- Appraisals

What will I get from the course?

As part of this course you will receive:

- 30 days access to the CMMI Online Model Viewer
- One attempt at the CMMI Associate exam (valid 30 days from course completion)
- Electronic access to all standard CMMI Institute slides and exercise material

On successful completion of the course you will receive:

- Official CMMI Institute certificate in pdf form
- Entry into the CMMI Institute database which will open up the possibility of your participation as an appraisal team member and is a pre-requisite for more advanced CMMI courses

Related Courses

This course is the initial foundation for all other CMMI training and certifications. Students wishing to further their understanding of CMMI, seeking the CMMI Professional certifications or wishing to participate on an appraisal team would also need to take one or more of the Building Excellence courses:

- Building Development Excellence
- Building Service Excellence
- Building Supplier Management Excellence
